## Recommendations

**HIGH IMPACT** Online Presence

#1

### Competitors are more visible online

We couldn't find a Google Business Profile for your company. This is the #1 way local customers find tradies. Businesses with a Google profile get 7x more clicks than those without.

**HIGH IMPACT** Website Speed

#2

### Your website is too slow

Your website is underperforming on speed. 53% of mobile visitors leave after just 3 seconds of loading. An AI-powered website loads instantly and never loses a customer to slow speeds.

**HIGH IMPACT** Mobile Experience

#3

### Losing mobile customers

Your mobile experience needs improvement. Customers on phones see a slow, unstable layout. An AI receptionist captures leads 24/7 even when your website can't.

**HIGH IMPACT** Ai Readiness

#4

### High opportunity for AI automation

Your business has no live chat to capture after-hours leads. An AI receptionist answers every call, books jobs, and follows up with customers — even at 2am. Your competitors who adopt AI first will capture the leads you're currently losing.
