Recommendations

HIGH IMPACT

Website Speed

#1

Your website is too slow

Your website is underperforming on speed. 53% of mobile visitors leave after just 3 seconds of loading. An AI-powered website loads instantly and never loses a customer to slow speeds.

HIGH IMPACT

Mobile Experience

#2

Losing mobile customers

Your website isn't mobile-optimised. 68% of Australian tradies' customers search on their phone. Without a mobile-friendly site, you're invisible to most potential customers.

HIGH IMPACT

Online Presence

#3

Competitors are more visible online

We couldn't find a Google Business Profile for your company. This is the #1 way local customers find tradies. Businesses with a Google profile get 7x more clicks than those without.

MODERATE

Seo Basics

#4

Google can't find your business

Your SEO setup needs work. Google can't properly understand and rank your website. Customers searching for your services are finding your competitors instead.
