Recommendations

HIGH IMPACT Online Presence

#1

Competitors are more visible online

We couldn't find a Google Business Profile for your company. This is the #1 way local customers find tradies. Businesses with a Google profile get 7x more clicks than those without.

HIGH IMPACT Ai Readiness

#2

High opportunity for AI automation

Your business has no live chat to capture after-hours leads; no online booking system. An AI receptionist answers every call, books jobs, and follows up with customers — even at 2am. Your competitors who adopt AI first will capture the leads you're currently losing.

HIGH IMPACT Website Speed

#3

Your website is too slow

Your website is underperforming on speed. 53% of mobile visitors leave after just 3 seconds of loading. An AI-powered website loads instantly and never loses a customer to slow speeds.

HIGH IMPACT Mobile Experience

#4

Losing mobile customers

Your mobile experience needs improvement. Customers on phones see a slow, unstable layout. An AI receptionist captures leads 24/7 even when your website can't.
